Love loses sight of charity.
The servile cannot serve.
The sower does not need look

The fruits of sacrifice become
the root of love.

Gladness does not need the
robe of gaudiness.

Whoever had a mind to work
will have a work to mind.

You do not lift another's bur-
den by treating it slightly.

The only love that is wasted is
that th tis paid out.

The curse of the impure heart
is that it can only see the things
of the night.

A man can be tender-hearted
without being putty-headed.

Meekness does not buy mas-
tery at the cost of manliness.

Learning the duty of happi-
ness will discover the happi-
ness of duty.

You cannot tell the depth of a
man's wisdom by the intensity of
his silence.

No heart is more hungry than
the one that follows for the
loaves alone.

It is not always the man who
sits up stiffest in church who
walks straightest in the world.

You can take most of a man's
boast of good qualities as adver-
tisement for missing one.

Some men think they have
peace of heart because they have
cobwebs in their brains.

When a man is long on cow-
ardice he is sure to try pass it
off as conscience.

The man who walks around

only strengthens the wall.

Take care of your own alleys
and the architecture of heaven
will take care of itself.

Monotony is so unattractive
that it is hard work even to be
bad all the time.

Every woman takes it as a
compliment to herself to have
her daughter engaged.

A girl has more ways of mak-
ing a man try to kiss her than
she has reasons why she
shouldn't.

The devil knew his business
when he invented the furnace.

When a woman hasn't any
reasons for nagging a man she
can't do it because she feels it is
her duty to him.

Faith is what you think you
believe because you want to be-
lieve it.

If the house catches fire, a
woman wants to save her old
love letters and the baby's first
pair of shoes.

A woman goes to an after-
noon tea in the same state of
excitement as a man does over
a horse race.

If you try to whisper to a girl
she acts as you might try to kiss
her against her will.

Being a sinner wouldn't be
such a bad job if people would
let you alone at it.

THE GREATEST LAND OFFER EVER MADE.

**A Well Improved Farm at \$5 per
Acre.**

A splendid body of 3,500 acres
of farming land; much bottom
and second bottom, all fenced
with hog tight barbed and
American Field wire fence, 300
acres in cultivation, good house
and barn and other conveniences,
several tenant houses, plenty of
good water furnished by wells,
springs and creeks, situated 4
miles from country seat and 15
miles from railroad, school and
church near by, plenty of good
timber—saw timber, post timber
and fire wood. This land is rich
and is especially adapted to corn
and alfalfa, but will grow any
crop. For hogs this farm is
hard to beat and the owner now
has 200 head that he will sell
with the land if purchaser de-
sire to buy. For fruit and
vegetables this locality has no
superior. Price, \$5 per acre and
will double the value within a
very short time.

This land is not on the semi-
arid plains of the western slope,
where the only hope for it becom-
ing valuable is the possible
success of the irrigation project,
and its only vegetation the buffalo
grass, sage brush, muskete and
cactus, but lies east of a line
running through Topeka, Kan-
sas, and is between the Brazes
and Trinity rivers in the great
state of Texas. Its latitude
places it below the southern
limit of cold weather and the
gulf breeze tempers the summer
heat and makes a climate that is
very pleasant the year round.

The question may be asked
by those not acquainted with the
condition, "why is valuable
farming land, much of which is
well improved, being offered for
sale at \$5 per acre?" The
answer is simply this: That 10
years ago much good land, not
only in Texas and the South,
but all over the West, could be
bought at that price, but during
the past 10 years the railroads
have made capital out of the
public land openings in Okla-
homa and other parts of
western United States and
Canada. The boom has been
kept up and the tide of emigra-
tion has steadily poured into
these extensively advertised
localities. No country on earth
has been so diligently and
effectively advertised as Okla-
homa. The result is a steady
stream of settlers has poured in
till land that sold from \$5 to \$10
an acre is now selling from \$20
to \$100 per acre while land just
as good and in many cases bet-
ter in Texas has been neglected.
The time is now ripe for a change
in these conditions. The Panama
canal is now under course of
construction, the great railroads
are extending their lines to the
Gulf of Mexico and the time is
near at hand when the cattle,
hogs, wheat and other exports of
the Mississippi valley instead of
going to New York will go to the
gulf ports, and Texas will be the
most favored section of the
union.

For further particulars of the
above land, write to J. F. John-
son, Keytesville, Mo., R. F. D.

When a girl has curly hair
it is a sign she does not think
much of the beauty of the girls
who haven't it.

Exposure to a sudden climatic
change produces a cold in the
head and catarrh is apt to follow.
Provided with Ely's Cream Balm
you are armed against Nasal
Catarrh. Price 50 cents at
Druggists or Ely Brothers, 56
Warren Street, New York, will
mail it. The Balm cures without
pain, does not irritate and cause
sneezing. It spreads itself over
an irritated and angry surface,
relieving immediately the pain-
ful inflammation, cleanses and
cures. Cream Balm quickly
cures the cold.

Public Sale.

est and best bidder, the follow-

We learn from the Constitution
that M. O. Stoner of near Indian
Grove was in Mendon Monday
having bills printed for his pub-
lic sale which was Tuesday Nov-
ember 7. Mr. Stoner owns sev-
eral hundred acres of land in the
county and is one of the most
successful farmers, but since the
death of his wife, which occurred
last June, the old gentleman has
been very lonesome, and has at
last decided to spend the re-
mainder of his days with his
children. The most of his time
will be spent with his son, E. E.
Stoner, also of near Indian
Grove. He contemplates making
a trip to California to visit his
sister, whom he has not seen for
30 years, and also intends to go
back to Pennsylvania, his birth-
place and fatherland. We hope
that Mr. Stoner will yet live to
see many more years, and that
they will bring comfort and
happiness to him.

THE YOUTH'S COMPANION,
144 Berkeley St., Boston, Mass.

Bert Ralph of near Mendon
has gone to Northern Minnesota
and Canada for a month's hunt-
ing trip. He was accompanied
by friends at Kansas City and
Darlington, Mo. We shall ex-
pect Bert to come down and tell
us a bear story when he gets
back.

Jack Doyle will be tried next
week at Lawrence, Kas., for
the murder of Merle Barnes,
a former Macon boy. Young
Barnes was found by some
farmer boys on the railroad
track, near Baldwin, Kas., on
the night of June 27. He told
the boys that he had been
thrown from the front section
of Hall's circus train by Jack
Doyle, a roustabout, with the
company. Doyle says that he
was drunk throughout the night
and does not remember having
any trouble with Barnes.

Soda Crackers and—

anything you choose—milk for instance or alone.

At every meal or for a munch between meals, when
you feel the need of an appetizing bite to fill up a vacant
corner, in the morning when you wake hungry, or at
night just before going to bed. Soda crackers are so
light and easily digested that they make a perfect food at
times when you could not think of eating anything else.

But as in all other things, there is a difference in sod
crackers, the superlative being

Uneda Biscuit

a soda cracker so scientifically baked that all the nutri-
tive qualities of the wheat are retained and developed—
a soda cracker in which all the original goodness is
preserved for you.

Outtalked a Woman.

It must be an awful thing for
a woman to be compelled to ad-
mit that she has been outtalked
by a man, but that is just what
the lady, who wields the Faber
on the Salisbury Press-Specta-
tor, did last week. The admis-
sion is taken verbatim from the
columns of the Press-Spectator
itself, and we assure Miss Hous-
ton that we sincerely sympathize
with her in the humiliation she
necessarily feels in meeting a
man who made her yell
"scissors" in her efforts to be
more fluent of speech than he.
But here is her admission in
cold type. Let it speak for it-
self:

"Dr. Franc. Mitchell, father
of the editor of the Recorder,
was over from Keytesville the
other day and dropped into our
office for a friendly little chat.
Dr. Mitchell always talks in-
terestingly even when we are not
agreeing with him. His views
on ruined castles with moats and
ghosts are all right, but we think
his opinions on a county news-
paper might be changed. We
felt assured we could have made
an impression on the latter if we
had any chance to talk."

Backache is never known to
those persons who take an oc-
casional dose of Pineules. The
value of the resin obtained from
the pine tree has long been
recognized in the treatment of
diseases of the bladder and
kidneys. One dose of Pineules
will give relief, and one bottle
will cure. Sold by Dempsey &
Schell.

Most men are willing to let
their wives train the children,
but they insist on training the
dogs themselves. This position
is very reasonable. No man ever
knew anything about babies,
but the dog is a kind of a fellow-
creature to him.

Croup is quickly relieved, and
Whooping-Cough will not "run
its course" if you use the original
Bee's Laxative Honey and Tar.
This Cough Syrup is different
from all others because it acts
on the bowels. You cannot
cure Croup and Whooping-
Cough until you rid the system
of all congestion by working off
the cold through a copious action
of the bowels. Bee's Laxative
Honey and Tar does this, and
cures all Coughs, Croup, Whoop-
ing-Cough, etc. No opiates.
Sold by Dempsey & Schell.

Five tombstones were erected
in the cemetery at Chillicothe
last week to mark the graves of
civil war veterans. The stones
were furnished free by the war
department of the government.
